

Zero-Tolerance policy

AEIFOROS SA commits as a leader in its field of activities and a buyer of scrap metals to take all necessary measures to protect the public wealth and especially any item or material originating from the National Infrastructure. The Company aims to protect its staff and safeguard its name and fame.

For this purpose, AEIFOROS has adopted and applies strictly a zero-tolerance policy towards any company or individual seeking to sell or dispose items and materials arising from robbery or destruction of public and private infrastructure or property.

AEIFOROS SA co-operates only with companies and traders officially producing or trading scrap metals and do not buy scrap metals from individuals unless it can be proven that the material, a small quantity, has arisen from household renovation or replacement, or registered professional activity. All deliveries of scrap metals are computed in the Electronic Registry of Wastes and all payments are made through bank.

Please kindly take note of the necessary docs that you must submit to us before the first delivery as listed in the next section.
